## MISSION NATIONAL DEVELOPMENT

Date : 28<sup>th</sup> July 2014

To  
Hon. Prime Minister of India  
Govt. of India,  
New Delhi – 110 001.

Sub : For bringing the vision of Hon. Prime Minister in truth suggestions invited from  
NGOs during election campaign 2014.

Respected Sir,

We thankful to Almighty for giving us visionary Prime Minister with truthful thoughts like you this time. In order to bring dreams you described in election campaign 2014 we being NGOs taking squirrel share to implement your vision in this Nation with all sincerity. In Ramayana Ravana was giant and it was quite difficult to defeat him with the help of monkey squad. But Lord Rama had vision to win and that vision gave strength to his soldiers and victory touched Lord Rama's feet. Likewise you have given visionary thoughts during your election campaign and we are here to provide moral as well as practical support to bring your vision in truth.

In this Kaliyuga Poverty and Corruption are as giant as Ravana. You have decided to eliminate the corruption by giving clean administration. We give salute to you for this.

Now being a conscious NGO we would like to put forth our suggestions as called for by you during your election campaign 2014 as follows :-

- 1 If the citizen is being treated as **asset** instead of liability, the value of citizen will increase and resultantly value of Nation will increase. See the examples of USA while fighting war with Iraq, USA Govt. tried their level best to save their own citizen. During the calamities, war and natural disaster USA and Israel always play safe side game and protect their own citizens. India has to imitate their policies and administration of Indian Govt. should give more importance of livelihood of citizen of India.

- 2 How to curb black money transaction/ bribery / benami transactions / unaccountable transactions/ problem of fake currency can be stopped by creating Currency Tracking System Software which we would like to explain in person before your honour if opportunity provided to us.
- 3 In order to award pride to the citizen of India first step Indian Govt. should take is to abolish baseless Adhar Card and instead of furious Adhar Card, law abided Citizenship Card should be given to each Indian citizen. For more details please see Exhibit – A in which validity of Citizenship card is mentioned.
- 4 e Governance System has to be implemented in India while monitoring all Govt. schemes and eco social upliftment programmes. Its called as micro governance system which shall be elucidated lateron.
- 5 Police reforms under police working system and police modernization. Please see Exhibit – B enclosed herewith.
- 6 Judiciary reform / judicial transparency. Please see Exhibit – B enclosed herewith.
- 7 Make a law for Right to Reply / Right to Acknowledgement. Please see Exhibit – C.
- 8 Children are future of any Nation. In our country welfare of Child and women are down looked. No body think how the children are utilized for begging and child labour in India. We have different remedies to minimize the wrong practices being undertaken by the Child Mafias to exploit helpless children. Our NGO has so many novel ideas and various remedies to minimize the rape and cruelty against women and child. Please see Exhibit – D.
- 9 As regards internal security we suggest implementing some ideas like under cover cops, civil cops and volunteer police selected from youths learning in colleges. These ideas shall be implemented without extra financial burden on Govt. for internal security of this Nation.
- 10 Violation of Human Rights is seen prominently in this country. There are instances of third degree, cruelty being adopted by Govt. departments like police, customs etc. Poor people are easily victimized by the Police in cooked stories. Roll of Law enforcement agencies is negative in protecting human rights. The presently working Human Rights Commission on State and Central level are not delegated with power. These commissions are like a lion in the Zoo. State level Human Rights Commission be delegated with powers of second category of High Court. For protection of human rights new separate **Human Right Ministry** has to be envisaged.
- 11 How to improve road transport and to give solution from traffic jam. How to minimize signals, traffic jams, road accidents we suggest to change the road making norms, improve the traffic systems, to change the driving norms. Driving course should be

12 treated as Diploma course of minimum six month and Govt. should check attitude of the driver, humble behavior, character and skill like wise done in Arms and Ammunition License norms.

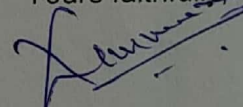

13 Please vanish old Planning Commission and create a new planning commission for inviting new ideas, practical remedies and suggestions from individuals and NGOs and others. Please formulate Research and Development Wing for developing novel ideas to uplift the status of efficiency of this country.

We the NGOs may kindly be given one opportunity to express our views for solution on problems in every field as well as overall development of this country and before your kind honour or before the commission or platform whichever you prefer to give us to produce our novel ideas and scheme.

Awaiting for reply from your esteemed office.

VANDE MATARAM !

Yours faithfully

( K. Kumar )
